## Kentucky Virtual Library A-14 Report 11 September 2013

Kentucky Virtual Library will be presenting to the Council on Postsecondary Education on Thursday, 12 September 2013, and as part of that presentation, a status report and summary numbers were provided to the board. I would like to share some of this information with the KLA Board. Since 1999, KYVL's value increases each year due to the growing demand for all types (articles, course content, photographs, audio, and video) of digital resources by all levels of education, businesses and citizens. KYVL is available to all Kentuckians and regularly serves over 1.8 million people from the 1,500 designated locations of its 300 cost-sharing member organizations. Through its economies of scale, KYVL is highly cost efficient and effective, and it ensures equity of access for all to its valuable resources.

KYVL has completed its 2010-13 Strategic Plan and will soon announce the 2013-16 plan. As part of the planning process, KYVL's 15<sup>th</sup> anniversary celebration will be included in the fall 2014 calendar. The KYVL Leadership Team and Alliance, representing all of KYVL's constituent groups provides invaluable direction and expertise as they review feedback from stakeholders and complete the analysis necessary to define Kentucky Virtual Library's strategic direction.

Kentucky Learning Depot, the P-20 OER (open education resources) collaborative now part of KYVL, gives a framework for educators to find, share and repurpose digital learning content to improve their course and classroom. KDE, KCTCS and CPE share a multi-year agreement with the National Repository of Online Courses to meet objectives of cost savings, sharing quality content and maximizing resources. The repository generates efficiencies in course development by allowing educators to create resources once and re-use and share them many times. The "open access" community (and research funders) endorse more open and unrestricted access to content in ways that make that public-funded content accessible to citizens and other scholars. Creative Commons, Learning Registry, Connexions and OpenCourseware Consortium are just a few of the organizations behind beneficial and transformative changes in digital content sharing.

KYVL benefits reach all corners of the Commonwealth as evidenced in the annual and cumulative statistics generated by its programs.

## Since 1999:

• 111 Million+ Searches by Public Postsecondary users in KYVL-sponsored databases, such as articles, citations, maps, and other digital content.
